RE: Docket No. 40-2061  
License STA 583

Dear Mr. Crow:

This is in further reference to the request of Kerr-McGee Chemical Corporation to amend its license for its West Chicago Facility.

A second option, also discarded, was the proposal to remove the thorium-bearing wastes from the site and transport them to another Kerr-McGee facility such as Cimarron, Oklahoma or Grants, New Mexico. The cost to contain the wastes at Cimarron was estimated at almost \$2,900,000 plus the transportation costs. Transportation costs to Grants were estimated at over \$3,000,000. The total cost for either of these proposals would be considerably more than these amounts. In November,
