

MAY 17 1985

Docket Nos.: 50-352/353
(10 CFR 2.206)

Robert J. Sugarman, Esquire
Sugarman, Denworth & Hellegers
16th Floor, Center Plaza
101 North Broad Street
Philadelphia, Pennsylvania 19107

Dear Mr. Sugarman:

This letter is in response to your letter of November 21, 1984, which requested that the Commission staff should require that the Philadelphia Electric Company (licensee) provide to the Commission a full disclosure of its intended sources of interim supplemental cooling water for the Limerick facility and the environmental consequences thereof. I have also considered the supplemental information contained in your letter to me on February 11, 1985 and your letter to me on March 28, 1985 which requested that the Commission determine that the interim water supply measures pursued by PECO for 1985 are the appropriate long term solutions to Limerick's supplementary water needs. To the extent that the licensee must disclose its plans regarding supplemental cooling water sources to ensure compliance with the Commission's requirements this need is met by the Environmental Protection Plan in Appendix B to License NPF-27. The issue of whether the Commission must, at this stage, direct the licensee to seek long term sources of cooling water other than that already reviewed and approved is also addressed in the enclosed Decision. The Petition has been considered under 10 CFR 2.206 of the Commission's regulations. For the reasons stated in the enclosed "Director's Decision Under 10 CFR 2.206" (DD-85-), the Petition has been denied.

A copy of this Decision will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c). As provided in 10 CFR 2.206(c), this Decision will become the final action of the Commission in 25 days, unless the Commission determines to review the Decision within that time. I have also enclosed a copy of a notice that is being filed with the Office of the Federal Register for publication.

Sincerely,
Original Signed by
H. R. Denton
