COMMENTS: AS modified by the  
Chairman. I do not agree  
to the third modification  
suggested by OGC. The focus  
should be on adequate protection  
of public health and safety,  
not on what most certainly  
would be a contrived calculation  
of risk equivalency.

COMMENTS:

I agree with Commissioner Bernthal's suggestion as outlined in COMFB-84-1 for the interim.

For the long-term, I am in favor of the expedited rulemaking approach (Alternative 4 in SECY-84-216)..
