By reference (a), you requested to discontinue submitting quarterly seismic reports and discontinue monitoring of four (4) network monitoring stations for reservoir-induced seismicity.

We have reviewed your request and find that you have not provided sufficient information for our evaluation. In order for the staff to evaluate this request, you should provide a more substantial report summarizing the monitoring network's observations and the basis for discontinuing monitoring.

Any questions should be addressed to the project manager assigned to your plant.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

Original signed by:
