Dear Mr. Harmon:

We have been notified that it is time to renew our
Source Materials License SUC-628 for 328 pounds of
depleted uranium oxide.

Am I correct as stated in your letter of July 22,
1968 that we can dispose of this by burial as provided in
Section 20.304 of 10CFR-20 and notify you that we will no
longer require a license?

We no longer have use of this material and would
like to dispose of it.

Yours truly,

A. E. Williams
Technical Director
