Docket No. 50-440

The Cleveland Electric Illuminating
Company

ATTN: Mr. Murray R. Edelman

Vice President

Nuclear Group

Post Office Box 5000

Cleveland, OH 44101

Gentlemen:

This refers to the special safety inspection conducted by Mr. J. Jacobson of this office on June 19-21, 1985 of activities at Perry Nuclear Power Plant, Unit 1 authorized by NRC Construction Permit CPPR-148 and to the discussion of our findings with Mr. C. Shuster and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Appendix. A written response is required. Although the findings are programmatic in nature, the violation may impact on completed construction. An evaluation of this potential impact on completed work should be included in your written response.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

8507150380 850711
