ATTN: Mr. Richard J. DiSalvo
Radiation Safety Officer

Gentlemen:

This refers to your letter dated December 27, 1984, for an amendment to Materials License 12-20378-01.

Your application referenced the enclosure of \$120 amendment fee, which we did not receive. Your application, however, is subject to an application fee of \$350 as specified in fee Category 2G and Footnote 1(d) of \$170.31, 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category shall be accompanied by the prescribed application fee for the new category. Your request for authorization to receive limited quantities of source material will increase the scope of your licensed program to include fee Category 2G. Payment of the \$350 fee should be made to the U.S. Nuclear Regulatory Commission and mailed to the attention of Cheryl Phillips at our Washington, D.C. address.

Your application will be processed by the Region III Licensing staff located at 799 Roosevelt Road, Glen Ellyn, Illinois 60137. The fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 78088.

Sincerely,

Original Signed by
