Gentlemen:

This refers to the inspection conducted by Mr. D. R. Carpenter of this office during the period January 1 - February 28, 1985, of activities authorized by NRC Construction Permits CPPR-128 and 129 for the South Texas Project, Units 1 and 2, and to the discussion of our findings with members of your staff at the conclusion of the inspection.

Areas examined during the unannounced inspection included site tours; review of revised startup administrative instructions; review of generic test procedures; reconciliation of proposed Final Safety Analysis Report, Chapter 14 Revision; review of startup training files, training simulator; and operator cold license training. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed report.

During this inspection, it was found that certain of your activities were in violation of NRC Requirements. Consequently, you are required to respond to this violation, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
