Dear Mr. Ebnetter:

Reference: NRC License SNM-1097, Docket 70-1113

It has come to our attention that one emission number (one week's value) from a single stack was not included in the total gaseous effluent quantities reported in the Semi-Annual Effluent Report of August 26, 1996. Although this resulted in a very slight increase in the total activity released, General Electric submits a corrected Semi-Annual Effluent Report for the period of January through June 1996.

If you have any questions regarding this matter, please contact me on (910)675-5889.

Very truly yours,

GE NUCLEAR ENERGY
