Mr. Tom Lonergan
Nuclear Regulatory Commission
Region 3
799 Roosevelt
Glen Ellyn, Illinois 60137

Mr. Lonergan:

The 200mc Cesium source that was reported to you on April 13, 1977 by Bill Fry as being loose in the Dow Chemical well near Midland, Michigan has been recovered and is in Birdwell's possession.

The source is in excellent condition and has not been damaged or altered.

Sincerely,

J. D. Hall
