SUBJECT: Application for Amendment of Operating License

Enclosed please find the Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which supplements the application submitted by Reference 2.

OPPD proposed to revise TS 4.3.2, "Reactor Core and Control" to allow the use of either zircaloy or ZIRLO® cladding and proposed the additional reference to Westinghouse Topical Report, WCAP-12610, "VANTAGE + Fuel Assembly Report," dated June 1990 (Westinghouse Proprietary) to be incorporated into TS 5.9.5b. In response to a conference call with members of NRR staff, it was requested that TS 5.9.5b also reference the Amendment and associated Safety Evaluation Report that will approve the use of WCAP-12610 for Fort Calhoun Station Unit No. 1. Accordingly, Attachment A contains a replacement page for TS 5.9.5b incorporating this into the reference.

If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.

Sincerely,

W. G. Gates
