}
Docket No. 50-285

APPLICATION FOR AMENDMENT
OF
OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U. S. Nuclear Regulatory Commission ("the Commission"), Omaha Public Power District, holder of Facility Operating License No. DPR-40, herewith requests that the Technical Specifications set forth in Appendix A to that License be amended to add a Westinghouse Topical Report to the list of analytical methods that are used to determine the core operating limits.

The proposed change in Technical Specifications are provided in Attachment A to this Application. A Discussion, Justification and No Significant Hazards Consideration Analysis, which demonstrates that the proposed change does not involve significant hazards considerations, was submitted in the Application for Amendment dated July 15, 1996. The proposed change would not authorize any change in the types or any increase in the amounts of effluents that will be released, or a change in the authorized power level of the facility.

WHEREFORE, Applicant respectfully requests that Specification 5.9.5 of Appendix A to Facility Operating License No. DPR-40 be amended in the form attached hereto as Attachment A.

A copy of this Application, including its attachments, has been submitted to the Director - Environmental Health Division, State of Nebraska, as required by 10 CFR 50.91.

OMAHA PUBLIC POWER DISTRICT
