ATTN: Mr. R. J. Kelley, Executive  
Vice President, Power Supply  
P.O. Box 4545  
Atlanta, Georgia 30302

SAFEGUARDS INFORMATION REMOVED

Gentlemen:

SUBJECT: DOCKET NOS.: 50-321 AND 50-366

This acknowledges the receipt of your letter of February 20, 1985, which transmitted a revision dated January 1985 to the Hatch Physical Security Plan.

Our review of the changes has found most of them to be consistent with the provisions of 10 CFR 50.54(p). Accordingly, they are acceptable for inclusion into the plan. However, as indicated in the Enclosure, certain other changes require minor administrative clarification and two changes are not consistent with the provisions of 10 CFR 50.54(p). On June 5, 1985, Ms. C. Perny of Region II discussed our concerns with Mr. B. Burns of GPC.

Please revert to the commitments in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Roger D. Walker, Director  
Division of Reactor Projects
