

DEC 21 1981

Illinois Department of Nuclear Safety
ATTN: Paul Eastvold
Radiation Protection Officer
1035 Outer Park Drive
Springfield, Illinois 62704

Gentlemen:

Enclosed is your NRC License Number 12-20084-01, which authorizes you to possess and use the radioactive material requested in your letter dated December 10, 1981. Please note the following:

1. We have not authorized you to use sealed sources and analyze leak test samples at your facilities at 1035 Outer Park Drive or 560 North Street as requested. In order to obtain this authorization, you will need to submit a description of each of these locations. The description should include the identification of adjacent and work areas and security against unauthorized removal.
2. We have authorized your users for only certain types of radioactive materials in Condition 12. If you desire a user to be authorized for materials other than those listed, you will need to submit documentation of his/her training/experience with the types and quantities of material he/she desires to use.
3. We have not authorized you to confiscate, possess, or receive any quantity of licensed material for purposes of safeguarding and/or the health and safety of the public as requested in your application received January 12, 1981. In order to obtain this authorization, you will need to submit information that will allow the NRC to evaluate the adequacy of your radiation safety program for such authorization. The information should include the name(s) and training/experience of the individual(s) who will be responsible for the steps to be taken in each incident and the general radiation safety procedures that will be followed for storage, security, and handling of confiscated material.
4. Please review your license carefully to assure that you understand and are in compliance with the terms and conditions contained therein. If you have questions, please contact our office by dialing (312) 932-2747 or 2625.

Sincerely,

Bruce S. Mallett, Ph.D., Section Leader
