Alabama Power Company  
ATTN: Mr. R. P. McDonald  
Senior Vice President-  
Nuclear Generation  
P. O. Box 2641  
Birmingham, AL 35291

Gentlemen:

SUBJECT: REPORT NOS. 50-348/85-08 AND 50-364/85-08

As stated in our letter of April 4, 1985, we have been reviewing your disagreement with the results of Inspection Report Nos. 50-348/85-08 and 50-364/85-08. In addition, we have been evaluating the adequacy of corrective actions you proposed in your letter of March 20, 1985.

Due to the uniqueness of your Security Plan and its implementing program, we felt it reasonable to request additional review and evaluation from Safeguards representatives of the Division of Safeguards, Office of Nuclear Material Safety and Safeguards. In our collective efforts we relied upon the Office of Nuclear Reactor Regulation (ONRR) Physical Security Plan Review Guidelines which were furnished to the industry in 1977 and early 1978 and, more importantly, upon the commitments found in your Physical Security Plan which by the ONRR Security Plan Evaluation Report accepted Revision 3, dated November 16, 1978. Enclosed are our detailed analysis of each violation and your disagreement.

After careful review of your disagreements we have concluded, for the reasons presented in the enclosure to this letter, that the violations except for Violation 3(B) occurred as stated in our Notice of Violation. We have also concluded that your proposed corrective actions appear adequate. With respect to Violation 3(B), we are currently continuing our evaluation of your response. We will advise you of our resolution under a separate letter.

Should you have any questions concerning this letter, please contact us.

Sincerely,

J. Nelson Grace  
Regional Administrator
