Glasgow, Montana 59230

Gentlemen:

This refers to the routine, unannounced radiation safety inspection conducted by Mr. C. A. Hooker, of this office on April 17, 1985, of activities authorized by NRC Byproduct Material License 25-16906-01 and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection. The enclosed NRC Inspection Report 30-11841/85-01 documents this inspection. This also refers to the Enforcement Conference held by telephone on May 3, 1985, with you and members of your staff, and the Region IV staff to discuss the findings of the NRC inspection. The enclosed Inspection Report 30-11841/85-02 documents this conference. Enforcement correspondence concerning these matters will be sent to you under separate cover.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations, and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observations by the inspector.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,

Original Signed by:

R. J. EVERETT

R. J. Everett, Acting Chief
