Conference Summary

Conference Held on May 3, 1985 (Report: 30-11841/85-02)

An Enforcement Conference was held by telephone to discuss the findings of the NRC inspection conducted on April 17, 1985. The violations and issues of concern were detailed by the Region IV staff and the licensee responded to each item.

Results: The NRC presented three violations of NRC requirements and expressed concern regarding the management control of the licensed program. The licensee's representatives responded relative to their understanding of the violations and presented no information that would allow deletion or modification of the violations. The representatives described their corrective actions to correct the violations identified. The NRC staff emphasized the need for effective management controls to prevent similar violations from recurring. The NRC staff described the enforcement options available to the NRC and stated that the licensee would be notified when a decision was made on their case.
