SUBJECT			
Future of Ruby Ranch In Situ Extraction Proposal			

SUMMARY

Per request of HJP, I contacted Santa Fe Mining to ask them to provide to the NRC in writing their mining intentions on the Ruby Ranch Property which is near Pumpkin Buttes, Wyoming. The company agreed to provide URFO with a letter which states that Santa Fe Mining does not intend to prepare an application for license to mine. The company is presently trying to sell the property. If that is not possible, they will hold onto the property and consider applying for a license in the future if the price of the uranium product increases in the market place.

Receipt of the letter from Santa Fe Mining should enable the URFO to retire Docket File No. 40-8839. No license was ever issued to this company for this proposed project.

ACTION REQUIRED

Retire Docket File No. 40-8839 when appropriate letter is received.
