Attention: Mr. Gary Konwinski

Dear Gary:

Enclosed is Dames & Moore's "Report, Characterization of Overburden, Mine Waste, and Uranium Ore, for Reclamation Contract 1, Poison Basin Mine Sites, Near Baggs, Wyoming". An addendum to this report will include the flood routing analysis which is currently being performed. We are hopeful we will be able to provide you with an advance copy of this analysis early next week.

According to a discussion with Kurt Anselmi, earlier today, the BLM has issued their approval of the plans. All that we ask of you is to review the report and provide comments to the WDEQ to the attention of Gary Beach. If there are any serious problems or questions, feel free to call myself or Gordon Matheson.

Thanks very much for your assistance.

Sincerely,

DAMES & MOORE

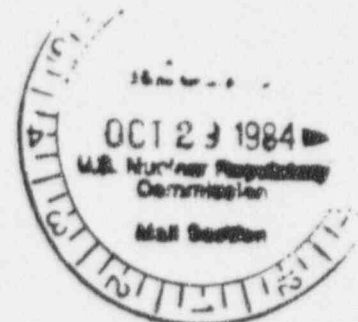

Mary L. Pearson
