Subject: NUS Process Services Corporation Topical Report on
Barrier-55 High Integrity Container, PS-TR-003, Rev. 0

Dear Mr. Greeves:

As I discussed, with Thomas Jungling in our telephone conversation on May 13, 1985, NUS Process Services Corporation is withdrawing the Topical Report for the Barrier-55 from further consideration by the U.S. NRC. NUSPSC has elected to discontinue production of the Barrier-55 and no further purpose will be served by continuing the review process. We would like to receive, however, any comments you have to date on the Barrier-55 topical report to improve the quality of our future topical report submittals.

I appreciate your assistance in this matter. Please give me a call if you have any questions.

Sincerely,

Steven B. McCoy
