SUBJECT: INSPECTION NOS. 030-19153/95-001; 030-22123/95-001; 070-00874/95-001

Dear Reverend Rashford:

This letter refers to the September 16, 1996 telephone discussion between Dr. Tudor of your staff and Mrs. T. Darden of this staff with respect to a status update on the final disposition of your radioactive waste. During the telephone discussion, Dr Tudor informed Mrs. Darden that except for the plutonium sources, all radioactive waste had been successfully transferred during April 1996. Dr Tudor stated that since all licensed material was successfully transferred which had formerly been used under Lic. 37-01753-04, a license termination request would be forth coming. This letter also refers to your September 13, 1995 correspondence, in response to our August 16, 1995 letter. As stated during Inspection No. 95-001, the plutonium sources will be transferred to Los Alamos National laboratory on an established date in 1999.

These actions will be examined during a future inspection of your licensed program.

No reply to this letter is required. Thank you for your cooperation.

Sincerely,

Original Signed By:
