

APPENDIX A
NOTICE OF VIOLATION

Boston Edison M/C Nuclear
Pilgrim Generating Station

Docket No. 50-239
License No. DPR-35

As a result of the inspection conducted on December 10-13, 1984, and in accordance with the NRC Enforcement Policy, 49 FR 8594 (March 8, 1984), the following violations were identified:

1. 10 CFR 50.54(q) requires that licensees authorized to possess and/or operate nuclear power reactors follow and maintain in effect emergency plans which meet the standards in 10 CFR 50.47(b) and 10 CFR 50, Appendix E. 10 CFR 50 Appendix E (2) requires that provisions be described for yearly dissemination of basic emergency planning information to the public, within the plume exposure pathway of the EPZ. Section 6.4.3, Part 5, of the Pilgrim Nuclear Power Station Emergency Plan states that "This dissemination (basic radiological and emergency planning information) will be accomplished yearly by general mailing and hand distribution...."

Contrary to the above, the licensee did not disseminate the required information by general mailing for 1983 or 1984, as described in their Emergency Plan, nor could they demonstrate that the information was disseminated by other means.

This is a Severity Level IV violation.

2. 10 CFR 50, Appendix E, Section G, requires provisions to be employed to ensure that the emergency plan, its implementing procedures ... are maintained up to date.

Section N.8.3 of the Emergency Plan states, in part, the emergency plan and implementing procedures will be reviewed annually and updated as necessary.

Contrary to the above, the licensee did not update annually the changes to the emergency plan and procedures.

This is a Severity Level IV violation.

Pursuant to the provisions of 10 CFR 2.201, Boston Edison M/C Nuclear is hereby required to submit to this office within thirty days of the date of the letter which transmitted this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
