Mr. Donald A. Nussbaumer, Chief
Source and Special Nuclear Materials Branch
U. S. Atomic Energy Commission
Division of Licensing and Regulation
Washington 25, D. C.

Dear Mr. Nussbaumer:

Ref: Docket No. 40-6659

Attached is an application, in quadruplicate, for renewal of the Petrotomics Company Source Material License No., SUA-551.

It is contemplated, on the basis of our original application and approval, that this license renewal application will extend for a period greater than one year.

The survey results obtained at Petrotomics Company to date, which have been filed with you on quarterly reports, indicate that we have an extremely low potential hazard at this operation and we anticipate no further requirements on this license renewal.
