Dear Ms. Phillips:

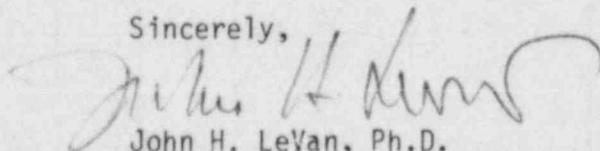

This is in reference to the letter dated February 25, 1985 (copy enclosed) from Ms. Glenda Jackson of the U.S. Nuclear Regulatory Commission concerning the amendment to our Materials License 12-02030-03.

We wish to specify at this time that our requested amendment to the License would add the name of Theodore J. Matuga, M.D. as a new authorized user, as a result of the departure of S. Srikanta Swamy, M.D. from our department. Dr. Srikanta Swamy was previously approved by the U. S. Nuclear Regulatory Commission as an authorized user and, since he is no longer affiliated with our Hospital, we wish in this case to request that you delete his name from our License.

Attached, please find the check in the amount of \$120.00 as the amendment fee, as specified by Section 170.31 (7C) of revised 10 CFR 170. With our approval of this amendment we will assume that Dr. Theodore J. Matuga will be an authorized user and Dr. S. Srikanta Swamy will be deleted from our License.

Your assistance in this matter is highly appreciated.

Sincerely,

John H. LeVan, Ph.D.
Hospital Radiation Safety Officer
