John C. Hoyle
 Docketing and Service Branch
 United States Nuclear Regulatory Commission
 Washington D.C. 20555-0001

SERVED OCT 18 1996

Dear Mr. Hoyle:

I have read the petition submitted by Vina Colley. I support her petition completely. The objections raised by Ms. Colley deserve serious consideration by the Nuclear Regulatory Commission and no action should be taken to certify the plants until all objections are fully addressed.

Thank You,

Ronald Lamb
