Prioritization of Topical Reports

Reference: 1) D.B. Matthews to T.V. Greene "Prioritization of Topical Reports Submitted for Review
by the Office of Nuclear Reactor Regulation", dated August 28, 1996

In response to your request, Reference 1), the Westinghouse Owners Group (WOG) provides you a list of the Topical Reports (WCAPs) submitted to the NRC. This list of Topical Reports has not been prioritized, but is provided in the interim until the WOG Steering Committee can complete the prioritization at their forth coming meeting on October 7 and 8, 1996. After this meeting the WOG will provide you a prioritized list of the submitted topical. Recognizing the importance of this task both to the NRC and the WOG we believe the delay in completing the prioritization until we have the opportunity for the appropriate WOG personnel to meet on this task will be beneficial to all parties. We hope this delay will not greatly inconvenience your efforts.

Very truly yours,

Thomas V. Greene, Chairman
Westinghouse Owners Group
