

NEIL F. HARTIGAN  
ATTORNEY GENERAL  
STATE OF ILLINOIS  
SPRINGFIELD  
62706

July 10, 1985

50-461

Mr. Byron Siegel  
Division of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Mail Code 416  
Washington, D.C. 20555

Re: Illinois Power Company  
Clinton Power Station

Dear Mr. Siegel:

I am writing to inquire regarding the status of the implementation schedule for completion of the control items contained in the January 28, 1985 Stipulation settling the Clinton Unit 1 licensing case (NRC no. 50-461 OL). Based upon our review of recent correspondence, it appears the timetable for the applicant's actions and NRC's reviews has been revised. Consequently, in order to properly plan for the implementation of this office's rights under the January 28, 1985 Stipulation, I am requesting current information as to the applicant's implementation schedule and the NRC's review schedule for the following items:

- (1) Water Level Measurement System Improvements;
- (2) Safety Parameter Display System Improvements;
- (3) Regulatory Guide 1.97 Instrumentation; and
- (4) Detailed Control Room Design Review.

Please call Greg Minor (408) 266-2716 or me (217) 782-9031 if you have any questions with respect to this request.

Very truly yours,

Allen Samelson  
Assistant Attorney General  
Environmental Control Division
