Allied Corporation
Allied Chemical Company
ATTN: Mr. Anthony J. Cipolla, Plant Manager
P.O. Box 430
Metropolis, Illinois 62960

Gentlemen:

Enclosed is Source Materials License No. SUB-526 as renewed. This license is renewed for a five-year term, expiring June 1, 1990, and contains additional conditions which were discussed with your Mr. R. Yates by Dr. D. A. Cool of my staff. A copy of the Safety Evaluation Report prepared in support of this renewal action is enclosed for your information.

You are hereby advised that any requests for amendment to this license should be submitted in the form of replacement or additional pages to the License Conditions Section and, if necessary, to the Demonstration Section with the changes or new items clearly identified.

This renewal is issued following preparation of an Environmental Impact Appraisal related to the continued operation of your plant. A Negative Declaration has been prepared and approved pursuant to 10 CFR Part 51. Copies of the Negative Declaration, published in the Federal Register on June 1, 1984, 49 FR 22901, announcing its availability to the public and the supporting Environmental Impact Appraisal were transmitted to you by letter dated May 24, 1984.

Please note that License Condition No. 12 requires that personnel with appropriate health physics training be present at the plant at all times when operations involving source material are being conducted. Prior to the compliance date of September 30, 1985, please provide for our review your plans for implementation of this condition and the training and experience requirements for these personnel.

If you have any questions regarding this licensing action, please feel free to call me or Dr. Donald A. Cool of my staff at 301-427-4510.

Sincerely,

Original Signed By:

W. T. Crow
