

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 40 and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee

1. Magna Chek, Inc.

3. License number 21-19111-02

2. 2125 Riggs Street
Warren, MI 48091

4. Expiration date May 31, 1990

5. Docket or
Reference No. 030-186326. Byproduct, source, and/or
special nuclear material7. Chemical and/or physical
form8. Maximum amount that licensee
may possess at any one time
under this license

A. Iridium-192

A. Sealed source(s)
(Technical Operations
Model A-424-9)A. No single source
to exceed 100
curies

B. Cobalt-60

B. Sealed source(s)
(Technical Operations
Model A-424-8)B. No single source
to exceed 75
curies

C. Cobalt-60

C. Sealed source(s)
(Technical Operations
Model A-424-2)C. No single source
to exceed 10
curies

D. Cobalt-60

D. Sealed source(s)
(Picker Corporation)D. One source of
235 curies

E. Cesium-137

E. Sealed source(s)
(Technical Operations
Model 76202)E. One source of
100 millicuries

9. Authorized Use

- A. For use in Technical Operations Model 660 exposure devices for industrial radiography and in Technical Operations Models 650 or 414 source changers for storage and replacement of sources.
- B. For use in Technical Operations Model 446 exposure devices for industrial radiography and in Technical Operations Models 488 or 771 source changers for storage and replacement of sources.
- C. For use in Technical Operations Model 402 exposure devices for industrial radiography.
- D. For use in Picker Corporation "Cyclops" 590 exposure device for industrial radiography in the orientations specified in the letter dated April 26, 1985.
- E. For use in Technical Operations Model 726 meter calibration kit for calibration of the licensee's survey meters.

SUPPLEMENTARY SHEET**

License number	21-19111-02
Docket or Reference number	030-18632

CONDITIONS

10. Licensed material specified in Subitems 6.A., 6.B., 6.C. and 6.E. may be used at the licensee's facility located at 2125 Riggs Street, Warren, Michigan, and at temporary job sites of the licensee anywhere in the United States where the Nuclear Regulatory Commission maintains jurisdiction of regulating the use of licensed material. Licensed material specified in Subitem 6.D. shall be used only at the licensee's facility located at 2125 Riggs Street, Warren, Michigan.
11. The licensee shall comply with the provisions of Title 10, Chapter 1, Code of Federal Regulations, Part 19, "Notices, Instructions and Reports to Workers; Inspections," Part 20, "Standards for Protection Against Radiation," and Part 34, "Licenses for Radiography and Radiation Safety Requirements for Radiographic Operations."
12.
 - A. Pursuant to Section 34.25, 10 CFR 34, the licensee is authorized to perform tests for leakage or contamination of the sealed sources authorized by this license in accordance with procedures contained in application dated April 15, 1985 (with attached manual).
 - B. Notwithstanding the periodic leak test required by Section 34.25(b), 10 CFR 34, such requirement does not apply to radiography sources that are stored and not being used. The sources excepted from this test shall be tested for leakage prior to any use or transfer to another person unless they have been leak tested within six months prior to the date of use or transfer.
 - C. Sealed sources authorized for a use other than radiography shall be tested as radiography sources in accordance with Section 34.25 of 10 CFR 34.
13. The licensee is authorized to receive, possess, and use sealed sources of Iridium 192 or Cobalt 60 where the radioactivity exceeds the maximum amount of radioactivity specified in Item 8 of this license provided:
 - A. Such possession does not exceed the quantity per source specified in Item 8 by more than 20% for Iridium 192 or 10% for Cobalt 60;
 - B. Records of the licensee show that no more than the maximum amount of radioactivity per source specified in Item 8 of the license was ordered from the supplier or transferor of the byproduct material; and
 - C. The levels of radiation for radiographic exposure devices and storage containers do not exceed those specified in Section 34.21, 10 CFR 34.
14. Sealed sources containing licensed material shall not be opened.
15. The licensee may transport licensed material or deliver licensed material to a carrier for transport in accordance with the provisions of Title 10, Code of Federal Regulations, Part 71, "Packaging of Radioactive Material for Transport and Transportation of Radioactive Material Under Certain Conditions."

16. The licensee shall maintain constant surveillance of restricted areas during radiographic operations in the fixed facility located at 2125 Riggs Street, Warren, Michigan.
17. Except as specifically provided otherwise by this license, the licensee shall possess and use licensed material described in Items 6, 7, and 8 of this license in accordance with statements, representations, and procedures contained in telegram dated December 13, 1984; application dated April 15, 1985 (with attached manual); letters dated April 16, 1985 and April 26, 1985 (with attached surveys). The Nuclear Regulatory Commission's regulations shall govern the licensee's statements in applications or letters, unless the statements are more restrictive than the regulations.
