Dear Ms. Hopkins:

Enclosed is a copy of the application received from the United States Enrichment Corporation (USEC) for the certification of the Paducah Gaseous Diffusion Plant. This is the current version of the application and reflects the changes that were made in response to NRC questions. Please note that this does not include the proprietary and classified information portions of the application. For future certification applications, USEC will likely submit replacement pages instead of the entire document.

If you have any questions, I can be reached at (301) 415-8126.

Sincerely,
