SUBJECT: ONE-TIME EXTENSION OF LICENSE EXPIRATION DATE  
LICENSE NUMBER 04-19004-02E, DOCKET NUMBER 3015194

Dear MR. HIDENORI TANAKA

On January 16, 1996, the Nuclear Regulatory Commission (NRC) amended its regulations in 10 CFR 30, 40, and 70 to extend the expiration date of certain byproduct, source, and special nuclear material licenses by five years (61 FR 1109). The above referenced license was extended by this rulemaking and will now expire on March 31, 2001. Your license will not be amended to show this extended date until the next routine licensing action. Until then, you may provide copies of this letter to vendors and other interested parties as evidence that the license has been extended as a result of the rule.

The extended license authorizes the same activities and contains the same limitations as it previously did. There will be no change in the frequency that the NRC inspects activities authorized by this license.

The amended rules state that in the case of licensees who are granted extensions and who have a currently pending renewal application for that extended license, the application will be considered withdrawn by the licensee and any renewal fees paid by the licensee for that application will be refunded. This will apply to licenses with expiration dates after July 1, 1995, for which renewal applications and the appropriate fees have been submitted and the renewal is still pending. Refunds will be mailed to licensees under separate cover.

All licensees, including those whose renewal applications were withdrawn by this rulemaking, who wish to change their radiation safety programs must request amendment of their licenses to reflect these changes. Amendment requests must include the correct amendment fee since the NRC cannot apply pending renewal refund balances toward amendment fees.

If you have any questions regarding this letter, please contact the individual below.

Headquarters: Susan L. Greene, (301) 415-7843

Thank you for your cooperation in this matter.

Sincerely,

**NOTE:** THE ONE-TIME, 5-YEAR EXTENSION OF YOUR LICENSE EXPIRATION DATE DOES NOT ELIMINATE THE 5-YEAR REPORTING REQUIREMENTS ASSOCIATED WITH YOUR DISTRIBUTION LICENSE. THEREFORE, YOU MUST SUBMIT A PRODUCT TRANSFER REPORT AS OUTLINED IN 10 CFR PART 32 EVEN THOUGH YOUR LICENSE WAS GRANTED A ONE-TIME, 5-YEAR EXTENSION.

Re: Renewal of Byproduct Material License No. 04-19004-02E  
Program Code: 03251 Our Ref. 501T 016

To Whom It May Concern:

The byproduct material license of Citizen Watch Company USA of Osage Avenue, Los Angeles, California 90064 to distribute time pieces, hands and dials to which Nemoto Tokushu Kagaku Company, Ltd. promethium-147 activated luminous paint has been applied to persons exempt from the requirements for a license pursuant to Section 30.15, 10 CFR Part 30 will expire on March 31, 1996. Citizen Watch Company USA also is in possession of a valid license from the State of California to store time pieces with promethium-147 thereon.

Accordingly, Citizen Watch Company USA hereby requests that its license no. 04-19004-2E be renewed for a new license period. This request is based upon the fact that all of the facts and representations upon which the license, as amended, was granted and renewed are still the same. In particular, the time pieces, hands and dials with the promethium-147 are made in Japan, the brand of luminous paint utilized is still the same, the radiation safety officer is still the same, all procedures are being followed and all required records are being kept. The basis for this representation is a review of the request for renewal of the byproduct material license of January 3, 1990, the amendment to the license dated September 7, 1984, the letter requesting renewal of the license dated December 10, 1984, a letter requesting an amendment to the license dated July 24, 1984, Amendment No. 2 to the license dated March 10, 1982, a letter to amend the license dated September 22, 1980, a copy of the license dated January 21, 1980 and a copy of the original application for byproduct materials license dated April 9, 1979. Copies of all of these documents are transmitted herewith.
