FREEDOM OF INFORMATION
ACT REQUEST

March 22, 1985

FOIA-85-198
rec'd 03/26/85

Director
Office of Administration of
the United States Nuclear
Regulatory Commission
Washington, D.C. 20555

Attn: Division of Rules and Records

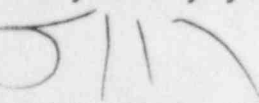

Gentlemen:

Pursuant to the Freedom of Information Act, we respectfully request that the United States Nuclear Regulatory Commission produce:

1. The license of application of St. Joseph Hospital in Albuquerque, New Mexico, submitted in 1967 or 1968 for an AECL Cobalt 60 Radiotherapy machine. This machine was in existence from 1967 or '68 through 1974. (License No. USAEC 30-01819)
2. The actual license granted St. Joseph Hospital for the AECL Cobalt 60 machine in use from 1967 or '68 through 1974.
3. The rules and regulations of the AEC or any successor entities such as the United States Nuclear Regulatory Commission for the use and operation of the Cobalt 60 machine.

This request is of extreme importance in that the information requested will be needed for a trial beginning on April 3, 1984. Consequently, we would appreciate it very much if you could do everything possible to expedite the request.

Very truly yours,

STEPHEN G. DURKOVICH
