Stephen G. Durkovich, Esquire  
412 Eleventh Northwest  
P.O. Box 26581  
Albuquerque, NM 87125

IN RESPONSE REFER  
TO FOIA-85-198

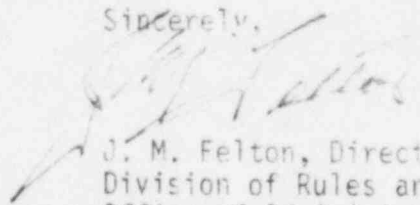

Dear Mr. Durkovich:

This is in response to your letter dated March 22, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), three categories of records concerning the application submitted in 1967 or 1968 by St. Joseph Hospital in Albuquerque, New Mexico, for a license for an AECL Cobalt 60 Radiotherapy Machine, the actual license granted St. Joseph Hospital for the Cobalt 60 Machine; and AEC/NRC regulations covering the use and operation of the Cobalt 60 Machine.

As Alzonía Shepard of my staff indicated in the telephone conversation with you on April 5, 1985, the records which you are requesting and all license records for licensees in the State of New Mexico were transferred in May, 1974, when New Mexico became an Agreement State. However, as Ms. Shepard stated, you may write to Mr. Kenneth Hagins, Chief, Radiation Protection Bureau, Environmental Improvement Division, Department of Health and Environment, P.O. Box 968, Santa Fe, New Mexico 87504-0968.

Enclosed are copies of 10 CFR Part 35 regulations which govern the licensing of byproduct material for human uses.

Sincerely,

  
J. M. Felton, Director  
Division of Rules and Records  
Office of Administration

Enclosures: As stated
