Dear Mr. Keppler:

NRC Docket No. 50-341
NRC License No. NPF-33
- (2) Letter, W. L. Axelson to W. H. Jens
April 11, 1985

Subject: Security Plan - Revised Amendment 6

In accordance with 10CFR50.54(p), attached are six copies of Amendment 6 (pages 4-6, 4-7, 4-19, and 6-7) of the Fermi 2 Physical Security Plan. Amendment 6 has been revised to provide the information requested by Reference 2 regarding the methods used to control manholes which could lend access to the protected area.

This amendment has also been revised to add a change to the protected area security patrols. This change allows for additional flexibility and randomness of the patrols. These changes, as discussed with Mr. Madaed of your office, do not decrease the safeguards effectiveness of the plan.

If you have any questions regarding this matter, please contact Mr. Lewis Bregni, (313) 586-5083.

Sincerely,

Wayne H. Jens
