MEMORANDUM FOR: Files

FROM: J. R. Allen, Radiation Specialist, HSP Section

SUBJECT: INITIAL BRIEFING ON HSC OVERFLIGHT OF RANDOM FOREST WILDLIFE MANAGEMENT AREA

On October 20, 1978, Thomas McQuire, an HSC project scientist, presented preliminary findings concerning his company's June aerial radiation survey of the Random Forest Wildlife Management Area (formerly Lockheed Radiation Effects Facility).

The meeting was attended by the following representatives of HSC, Georgia State, Lockheed, and HSC:

- J. V. Nathan - HSC, Region II
- E. M. Clark - HSC, Region II
- D. M. Montgomery, HSC, Region II
- J. R. Allen - HSC, Region II
- E. C. Ashley - HSC, Headquarters
- J. L. Sasser - Georgia State Environmental Protection Division
- T. R. Phillips - Georgia State Environmental Protection Division
- B. Cline - Georgia State Environmental Protection Division
- A. Simms - Georgia State Department of Human Resources
- T. J. Haley - Lockheed Georgia Company
- T. McQuire - HSC
- B. Brown - HSC

Discussion at the briefing covered initial overflight results, reasons for HSC tardiness in publishing a report and the need for a letter to Georgia State from the HSC Region II Office summarizing the preliminary results of the overflight. HSC's letter to the State addressing the findings as presented at the meeting is enclosed.
