Dear Ms. Douglas:

As per your request of August 31, 1984, this letter is to inform you that our office in Lafayette, Indiana (Soil Testing Services) has closed, and our NRC materials license for that office may be terminated.

At this location we had in our possession one Seaman Nuclear C-100 Meter which employs a radium source. This material was covered under our Indiana state license. We at no time had in our possession any material that would have been covered by the NRC license.

If you have any questions with regard to the information contained here in, please call.

Sincerely,

STS CONSULTANTS, LTD.
