The NRC Region I SALP Board has reviewed and evaluated the performance of activities at the Shoreham Nuclear Power Station for the period of March 1, 1984, through February 28, 1985. The results of this assessment are documented in the enclosed SALP Board Report dated April 22, 1985. Additionally, you may provide written comments within 30 days after the meeting. Consideration of any points raised during the meeting or in your written comments will be reflected in my characterization of your overall safety performance which will be provided as part of the final SALP package.

Your cooperation is appreciated.

Sincerely,
