Dear Mr. Tokar:

The major changes include break out of the various sections, renumbering of the pages, a cross reference for all criteria, revision of the vent design, inclusion of the user procedure and response to several verbal concerns that have been expressed.

Enclosed are ten copies of the responses labeled, "Volume 2 (Proprietary), NUPAC FL-50/EA-50, Responses to NRC Questions, 5/85". When this information is incorporated in the final Topical Report, it will be reviewed and the appropriate information will be included in the revised non-proprietary version.
