Docket Number 50-254, DPR-29, Unit One

Enclosed is Licensee Event Report (LER) 96-017, Revision 00, for Quad Cities Nuclear Power Station.

This report is submitted in accordance with the requirements of the Code of Federal Regulations, Title 10, Part 50.73(a)(2)(iv). The licensee shall report any event or condition that resulted in manual or automatic actuation of any Engineered Safety Feature.

The following commitments are being made by this letter:

1. Licensed Operator lesson plans will be revised to ensure the details of the 8/25/96 event and pressure transducer calibration data affecting the EHC system are presented in initial training by 12/31/96.
2. The 8/25/96 event will be presented to Operators and Engineers in retraining by 12/31/96.
3. QCGP 1-1, Normal Unit Startup, will be revised to ensure the condenser backpressure bypass permissive is satisfied prior to lowering the EHC setpoint into a control range. This revision will be completed by 11/01/96.
4. The 8/25/96 event will be tailgated with the Training Department by 12/31/96 emphasizing the instructor's responsibility to communicate such discovered information in training materials to ensure thorough and consistent training.
