Washington, D. C. 20555

SUBJ: Control #18607, your letter dated February 22, 1985

Dear Francis A. St. Mary:

In previous communication with you we submitted the name of Richard P. Stevens, M. D. to serve as "day-to-day" radiation safety officer. A copy of Form NRC-313M-Supplement A is attached stating the qualifications of Dr. Stevens. Dr. Stevens is our Chief of Radiology Service and will be designated as our Radiation Safety Officer. Your approval of this appointment is sought.

The qualifications of our Nuclear Medicine Technologist are also attached. It is hoped that recognizing his qualifications, and with Dr. Stevens's knowledge, day to day running of the Service will be handled satisfactorily. The addition of Dr. Tuttle as Consultant will provide strong support and supervision for this unit. Your favorable action is requested.

Sincerely,

PERRY C. NORMAN
Medical Center Director
