SUA-816, Amendment No. 14
04001341330S

Tennessee Valley Authority
ATTN: Mr. J. W. Hufham, Manager
Licensing and Regulation
500A Chestnut Street - Tower II
Chattanooga, Tennessee 37401

Gentlemen:

Pursuant to Title 10, Code of Federal Regulations, Part 40, Source
Material License SUA-816 is hereby amended by the addition of License
Condition No. 42 to read as follows:

42. Notwithstanding any conflicting requirements of License
Condition Nos. 26 and 31, the licensee shall adhere to the
statements, representations and conditions contained in their
Health Physics Manual (HPM) submitted by letter dated
September 30, 1983, and as revised by letters dated January 16,
1984, October 30, 1984, and April 10, 1985. The HPM is the
detailed Radiation Protection Plan originally required by this
condition. Anywhere the words "should" or "will" are used in
the HPM, they shall denote a requirement. In addition to the
requirements of the HPM, the licensee shall ensure that the
Radiation Safety Officer and Health Physics Technicians shall
attend at least 1 week of refresher training related to their
duty assignments, at least every 2 years.

All other conditions of the license remain the same.

The effects of this amendment are to approve Revision 3 to the Health
Physics Manual and to specify a training interval for the health physics
staff.
