Dear Mr. Sollenberger:

Plans are underway to issue the Vicinity Properties Management and Implementation Manual (VPMIM) as a controlled document. Since the VPMIM is scheduled to be revised quarterly, we feel that this is necessary in order to control distribution efforts and to assure that all project participants receive necessary revisions.

If any employee in your organization possesses a copy of the VPMIM and wishes to receive important revisions, he must first register his document with the TAC. Simply check the appropriate columns on the attached form and return to Phil Stassi of the TAC by June 14. If any employee wishes to receive a current copy, please request one on the attached form.

Upon receipt of this form, a controlled document number will be assigned and either a complete current VPMIM or a current set of revisions will be forwarded. Enclosed with the document will be a controlled document sticker and instructions for its use. We appreciate your cooperation in this effort.

If there are any comments or questions, please contact Philip Stassi at (505) 846-4030 or me.
