Subject: Management Changes

Dear Mr. Beach:

The purpose of this letter is to inform you of changes to management positions affecting Illinois Power's Clinton Power Station.

	<u>Position</u>	<u>Effective Date</u>
Mr. Patrick D. Yocum	Manager-Clinton Power Station	September 21, 1996
Mr. Michael W. Lyon	Director-Plant Operations	September 24, 1996

The above individuals meet requirements for these positions as delineated in the Updated Safety Analysis Report and standard ANSI/ANS 3.1 1978, "Standard for Selection and Training of Personnel for Nuclear Power Plants."

Illinois Power has evaluated these changes for impact on the Clinton Power Station quality assurance program and has concluded that the changes do not reduce any commitments contained in the quality assurance program description previously accepted by the NRC.

Sincerely yours,

Wilfred Connell
