U. S. Nuclear Regulatory Commission  
Materials Licensing Section  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Gentlemen:

I hereby make application for a material license to use radioactive (32-P) labeled nucleotides in quantities not to exceed 5 millicuries at a time. The radioactive materials will be used and stored in the facilities described in the application documents enclosed.

MVNC is a private, liberal arts undergraduate institution. The radioactive materials covered by this application will be used by our students in their formal course work as well as individual studies. As I understand the regulations, colleges which use radioactive materials for teaching purposes are exempt from the license fee.

Sincerely,

Joseph H. Lechner, Ph.D.  
Associate Professor of Chemistry
