SUBJ: Application for materials license - Medical

1. Attached is this station's application for by-product materials necessary for activation of a new Nuclear Medicine Section.
2. Nuclear Medicine will be under the technical supervision of a newly recruited physician, Dr. Wallace Holter. Information on the specialty training of Dr. Holter is enclosed.
3. Also enclosed is a copy of the proposed equipment layout, which was not included in the original plan you received. Marketing Center projects that our camera will be delivered in early August and the computer should arrive in early September.
4. Nuclear Medicine will provide a definite improvement in the diagnostic capabilities of this medical center and allow our physicians the use of nuclear medicine without having to transport the patient to other medical facilities. This will be of obvious benefit to both physician and patient.
5. Please review this application and forward it on to the NRC as appropriate. If you have any questions or need any additional information please contact David Alligood, Health System Specialist at F.T.S. 422-4223.
6. Thank you for your assistance.
