

Fort Calhoun Station Unit No. 1
EMERGENCY PLAN IMPLEMENTING PROCEDURE
EPIP-OSC-12

Accidental Actuation of Early Warning Siren System

I. PURPOSE

To provide a method which can inform the public quickly of "no emergency" should an accidental sounding of the siren system occur.

II. PREREQUISITES

- A. Verify an emergency does not exist.
- B. Confirm one or more sirens are sounding.
- C. Obtain the authentication code word from the key locker.

III. PRECAUTIONS

- A. Speak slowly and distinctly. The communication may be taped for rebroadcast.

IV. PROCEDURE

- A. Obtain name, telephone number and location of the caller reporting siren sounding.
- B. Attempt to determine how many have sounded and if siren(s) has stopped at caller's location.

If the County Communication Center was not the original caller, contact the appropriate county sheriffs office. Inform them that the siren warning system has accidentally sounded but there is no emergency at Fort Calhoun Station.
- C. Contact Communication Dept. (Phone: [REDACTED] Work Days, [REDACTED] Off Hours) that siren has sounded accidentally and requires shut-off or repair.
- D. Notify Plant Manager or the Duty Supervisor to perform Step E. If the Plant Manager or Duty Supervisor cannot be reached within five minutes, the Shift Supervisor will perform Step E.

IV. PROCEDURE (Continued)

E. Notify the EOF Information Specialist or his designated alternate. Reference call list for telephone numbers. If Media Relations personnel cannot be reached within five minutes, perform steps (1) thru (3) below.

1. Contact radio station KEAB (Telephone No: [REDACTED])
Between the hours 00:30 to 04:00 use [REDACTED]
2. Identify yourself and give the purpose of the call.
3. Verbally provide the following "no emergency" message exactly as printed:

"Sirens of the Fort Calhoun Nuclear Station emergency system are accidentally sounding. However, no emergency has occurred at the plant. Repeating, no emergency has occurred at the Fort Calhoun Nuclear Station. The sirens you may hear were sounded accidentally. The siren alert may be disregarded as plant conditions are normal and there is no emergency at the Fort Calhoun Station."
