Re: Changes to Addresses of Correspondence Regarding:

License No. 37-185-4, Docket No. 030-00952  
License No. 37-185-5, Docket No. 030-07059  
License No. 37-185-6, Docket No. 030-10645  
License No. R-2, Docket No. 50-005  
License No. SNM-95, Docket No. 70-113

Dear Sir or Madame:

In recent discussions with Mr. Marvin Mendonca, the Project Manager of our R-2 research reactor license, we agreed that address changes in correspondence are in order. We therefore request that the following distribution of correspondence be implemented.

Original copies should be sent to me addressed as follows:

Dr. David A. Shirley  
Senior Vice President for Research and Graduate Education  
Pennsylvania State University  
207 Old Main Building  
University Park, PA 16802

Management of the reactor license and oversight for reactor operator licenses is delegated to the PSBR Director. All other licenses are managed by the University Health Physicist. We request that copies of correspondence related to all licenses be sent to both individuals at the following addresses:

Dr. Marcus H. Voth, Director  
Penn State Breazeale Reactor  
The Pennsylvania State University  
Breazeale Reactor Building  
University Park, PA 16802

Mr. Rodger W. Granlund  
University Health Physicist  
The Pennsylvania State University  
228 Academic Projects Building  
University Park, PA 16802

When it is appropriate to send copies to the Commonwealth of Pennsylvania, they have been sent to the Office of Administration and Budget. In discussions with the Commonwealth it has been agreed that the appropriate agency should rather be the Department of Environmental Protection

9610010271 960913  
PDR ADGCK 05000005  
H PDR

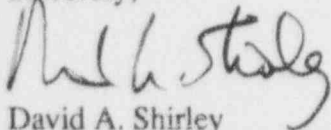

1/0  
MOOG

and not the Office of Administration and Budget. Accordingly, copies of correspondence intended for the Commonwealth should be addressed to:

Mr. William P. Dornsife  
Director of Radiation Protection  
Department of Environmental Protection  
13th Floor, Rachel Carson State Office Building  
P. O. Box 8469  
Harrisburg, PA 17105-8469

We would appreciate your using these addresses on all correspondence from both headquarters and the Regional I office. If you have questions on this matter, please refer them directly to Dr. Marcus H. Voth, Director of the Breazeale Reactor, at (814) 865-6351.

Sincerely,

David A. Shirley  
Senior Vice President for Research  
and Graduate Education
