

October 12, 1996

James Tocci
Radiation Safety Officer
University of Massachusetts
at Amherst
N414 Morrill Science Building
Box 35710
Amherst, Massachusetts 01003-5710

Dear Mr. Tocci:

This refers to your letter dated September 30, 1996, regarding razing of a building in which one laboratory was used for work with licensed material until 1986. As discussed between you and Betsy Ullrich of this office in telephone conversations on September 30 and October 7, 1996, this laboratory (and building) were surveyed and released for unrestricted use in 1986 by the Radiation Safety Office in accordance with the conditions of your license and NRC guidance. No notification of the closure of this building, pursuant to 10 CFR 30.36 which was implemented in August 1994, is required at this time. We have no objection to your razing the building in October 1996.

You are required to notify us of the decommissioning of buildings which have been in use since August 1994 or which were not surveyed and released prior to August 1994, if the decommissioning of a separate building or an entire site meet any of the conditions specified in 10 CFR 30.36(d). If you have any additional questions about this matter, please contact me or Betsy Ullrich at (610) 337-5040.

Sincerely,

ORIGINAL SIGNED BY:

John D. Kinneman, Chief
Nuclear Materials Safety Branch 2
Division of Nuclear Materials Safety

Additional comments:

I spoke to Betty about
this "planned" demolition
last Friday. Looking
forward to hearing from
you on this. They want to
blow this building down
this month. I just found out.

The question is "Have we
completed our license required
or reg. required survey of the
building?"
