

APPENDIX A  
NOTICE OF VIOLATION

Bruce F. Bower, M.D., P.C.  
Hartford, Connecticut 06106

Docket No. 030-08163  
License No. 06-14854-01

As a result of the inspection conducted on April 10, 1985, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C), the following violation was identified:

10 CFR 20.201(b) requires that each licensee make such surveys as may be necessary to comply with all section of Part 20. As defined in 10 CFR 20.201(a), "survey" means an evaluation of the radiation hazards incident to the production, use, release, disposal, or presence of radioactive materials or other sources of radiation under a specific set of conditions.

Contrary to the above, surveys were not made to assure compliance with 10 CFR 20.301, which describes authorized means of disposing of licensed material contained in waste. Specifically, on April 10, 1985, an inadequate survey was made for licensed material in trash cans prior to disposing of the material to the normal trash.

This is a Severity Level IV violation. (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Bruce F. Bower, M.D., P.C., is hereby required to submit to this office within thirty days of the date of the letter which transmitted this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
