ATTN: Donald A. Gherardini
General Manager
Rt. 45 N., Box 39
Fairfield, IL 62837

Gentlemen:

Enclosed is Amendment No. 02 to your NRC License No. 12-19985-01 which authorizes W. S. Vandever and C.R. Wiles to use americium-241 and cesium-137 sealed sources only. Be advised that in order to authorize them to use unsealed materials (iodine-131 and iridium-192) for tracer studies, you will need to submit documentation of the training each has received in the use of tracer materials for well logging operations.

We have not authorized David S. Gherardini to use licensed materials. In order to obtain this authorization, you will need to submit documentation of the on-the-job training he has received in the use of sealed and unsealed (for tracer studies) sources in well logging operations. Be advised that this training should be under an authorized user listed on an NRC or Agreement State license performing well logging and/or tracer studies for a duration of at least 3 months.

Information submitted in response to this letter should state that it is additional information and not a new amendment request.

Please review your license carefully to assure that you understand and are in compliance with the terms and conditions contained therein. If you have questions, please contact our office by dialing (312) 790-5625.

Sincerely,

Patricia J. Whiston
